

You Can Teach a Parrot to Say, "Just as Good"

but he wont know what he is talking about.---Some people no doubt have told you that they can supply you with as good a cultivator as the "DEERE" but they are just like the parrot. Some cultivators are being offered the grade and are claimed to be equal to or better than the "DEERE". Why do they mention the "DEERE"? The DEERE.CULTIVATORS have no equal---Light Draft--No Neck Weight.---See them before placing your order.

MAY DEDICATE COURT HOUSE ON JULY 4TH

It has been suggested that the new county court house be dedicated on July 4, which in our estimation, would be a splendid date for this important event. It is a holiday and everybody generally wants to go somewhere, and nothing could be more appropriate than the dedication of the court house on this date. Let the people consider this matter and everybody get together on this date and have a regular house warming, that will never be forgotten by the present generations.

Barry county has a court house that her citizens can feel proud of, because, first we have our moneys worth. Second, because it is the most convenient court house in this state. Third because it has one of the best circuit court rooms in this state. on the first floor. Fifth, because it is easy of access for the old people and we have all the room necessary. Sixth, because we have a public rest room, etc. We could state many more reasons why it is the best.—Cassville
